

MET-L-KLEEN

Aqueous Cleaners

MET L KLEEN 2006-N

Aqueous Cleaner for High Pressure Washing Machine

Description

MET L KLEEN 2006-N is a Low foaming alkaline and aqueous cleaner formulated to clean a large range of soils including grease, metal working fluids and industrial oils. Its unique formula gives excellent corrosion protection on ferrous metals and its alloys and ensures no stains on light metals. It produces very low foam (No foam) even if used in high pressure cleaning systems.

Features & Benefits

- ▶ It's very low foaming tendency makes ideal for pressure washing component cleaning up to 30 bar pressure
- ▶ It's displacing properties ensure longer life through soil separation compared to conventional cleaners
- ▶ It's suitable for multi metal cleaning operations due to metal passivating additive package.
- ▶ Protects the components from flash rust due to high reserve alkalinity
- ▶ Does not contain free chlorides, nitrites and petroleum products

Applications

MET L KLEEN 2006-N is ideal for all applications such as cleaning dirt, lubricating oils, rust preventive oils etc. It can also be used for de burring and metal pretreatment operations.

Usage recommendation

- ▶ 2-5 % : We recommend dilution in DM water as low Hardness and low chlorides improve the cleaning efficiency
- ▶ Temperature range : Ambient Temperature to 80 Deg. C
- ▶ Spray Pressure : up to 30 bar

Typical Properties

Attributes	Specifications
Appearance	Clear aquamarine blue liquid
Specific Gravity	1.05 +/- 0.02
pH - Neat product	10.5 +/- 0.5
pH @ 5% dilution	10.0 +/- 0.3
Flash Point	None
Cast iron corrosion test (IP 289) (3% solution in 800 ppm Hard water)	Less than 5%
R.I. @ 10%	3.4
R.I. @ 5%	1.6
R.I. @ 2.5%	0.7
R.I. @ 1.25%	0.3

Pack Size : Available in 20 and 205 ltr drum

Note: As these are alkaline cleaners, we do not recommend prolonged skin contact with the solution
